Suhayl Dastager

AI & Computer Science Graduate | AI & Data Engineer | Web & App
Developer | Automation & Analytics
Dubai, Dubai, United Arab Emirates

Summary

As a BSc Artificial Intelligence & Computer Science graduate from
the University of Birmingham Dubai, I design and deliver data-driven
applications that automate, predict, and inform decisions.

Over the past two years, I've built end-to-end AI and analytics
systems – from Flask-based document-flow automation to Power
BI dashboards and forecasting models. My projects have reduced
manual workloads by 35–40 %, improved content performance by 16
%, and demonstrated how modern data stacks can drive measurable
results.

My toolkit spans Python · SQL · Power BI · Tableau · Flask · scikit-
learn · Docker · LLMs · OCI Cloud, and I'm currently deepening
expertise in dbt, MLflow, and LLM evaluation to bridge engineering
and consulting.

I'm passionate about turning raw data into business intelligence and
building AI solutions that scale ethically and efficiently.

Open to roles in Data Science, AI Engineering, and Consulting.

_____

Experience

Loop Media
Content Management Specialist (Freelance)
January 2025 - October 2025 (10 months)
Dubai, United Arab Emirates

- Engineered trend-detection pipelines and analytics dashboards to identify
viral opportunities within 24   hours — driving 7 videos > 1M+ views and a 60%
share-rate increase across TikTok & Instagram.

- Improved average video view rate by 50% via data-driven pacing, hook, and posting-window optimization — outperforming platform benchmarks by 2.3×.

- Increased combined follower base by 30% in 90 days through automated calendar scheduling and engagement analysis (Python · Google Analytics · Tableau).

Halliday Forfaiting Services L.L.C FZ
1 year

Data Automation Lead
March 2025 - September 2025 (7 months)
Dubai, United Arab Emirates

- Automated Zoho–Twilio workflows using n8n + Flask, cutting manual reporting time by 35 %.
- Built Document-Flow Automator, an AI onboarding system (Flask · Gemini · GPT-4) for document validation & summary generation — 40 % faster reviews and zero QA backlog.
- Unified financial data across departments with REST APIs + PostgreSQL, improving reporting latency and cross-team accuracy by 25 %.

Data Collection Officer
October 2024 - June 2025 (9 months)
Dubai, United Arab Emirates

As a Data Collection Officer, I am responsible for gathering, organizing, and maintaining accurate and relevant data to support decision-making processes within the organization. My primary duties include:
• Data Acquisition: Collecting data from various sources, such as surveys, interviews, observations, and online databases, ensuring all information is gathered ethically and in compliance with organizational standards.
• Data Verification: Reviewing and validating data to ensure accuracy, consistency, and completeness before entering it into the system.
• Data Entry and Management: Inputting collected data into databases or systems, organizing it systematically for ease of access and analysis.
• Reporting: Generating detailed reports from the collected data to provide insights and assist in strategy development.
• Collaboration: Coordinating with team members, project managers, and stakeholders to understand data requirements and ensure timely delivery of information.
• Compliance: Adhering to data protection and confidentiality policies, ensuring sensitive information is handled with care.

• Problem-Solving: Identifying gaps or inconsistencies in data and working proactively to resolve them.

RelphaCareTechnologies
Marketing Intern
July 2024 - September 2024 (3 months)
Dubai, United Arab Emirates

- Designed A/B tests across digital campaigns to optimize spend — 12 % CPA reduction and 20 % lift in impressions.
- Automated weekly funnel & performance dashboards (Excel), shortening reporting cycles from 2 days → 2 hours.
- Partnered with marketing and product teams to translate data into actionable recommendations that improved audience targeting.

chickingglobal
Digital Marketing Specialist
December 2022 - June 2023 (7 months)
Dubai, United Arab Emirates

- Increased overall audience engagement by 40 % through consistent content calendars, interactive posts, and real-time community engagement (comments + DMs).
- Produced high-impact Reels and TikToks using CapCut / Premiere Pro, boosting brand awareness and repeat impressions across UAE-based audiences.
- Executed targeted advertising campaigns and influencer partnerships that drove a measurable lift in reach and conversion (CTR +18 %).
- Analyzed platform metrics weekly to identify trending content formats and refine posting strategy using Excel.
- Collaborated with creative, design, and marketing teams to align campaign tone and visuals with brand guidelines.

The Tutoring Center
System Specialist
January 2020 - April 2020 (4 months)
Dubai, United Arab Emirates

- Supported rollout & documentation of IT system configurations, enhancing reliability and process clarity.
- Maintained databases and internal systems, resolving technical issues and ensuring smooth daily operations.

SAP
Information Technology Summer Intern
June 2019 - August 2019 (3 months)
Dubai, United Arab Emirates

- Assisted IT teams with system configuration, virtualization setup, and user support, improving infrastructure uptime and efficiency.
- Gained early exposure to enterprise software environments and secure data management workflows.

Education

University of Birmingham
Foundation degree, Computer Engineering · (September 2021 - May 2022)

University of Birmingham Dubai
Bachelor of Science - BS, Artificial Intelligence · (September 2022 - July 2025)

The English College Dubai
High School Diploma · (September 2015 - June 2021)
